

Guide: Download list of participants NDC 2025

Due to GDPR regulations, the organizers are not permitted to share a list of participants. However, nearly 90% of the participants have confirmed their inclusion on the electronic list available in the registration system. This list will also be included in the delegate pack, a handout booklet available during the congress.

Once you or any of your colleagues register for the congress, there will be two options to view the list of participants electronically.

The first option is to download the conference app. Log in with your registered email address to access the list of participants. <u>https://nordicdairycongress.com/conference-app</u>

The second option is to access the registration portal using the confirmation email or the invoice email. Both emails contain a link – see the link in the red box in the example below.
