

# Nordic Dairy Congress

For over a hundred years, dairy organisations from Denmark, Finland, Iceland, Norway and Sweden have been the proud hosts of the Nordic Dairy Congress. In 2018, the UK joined this esteemed alliance, and together, these six nations constitute the Nordic Dairy Technology Council, responsible for orchestrating the congresses.

The Nordic Dairy Congress stands as the premier gathering for dairy industry stakeholders across all Nordic countries. The upcoming 46th congress set to take place in Iceland, offers a unique blend of three days filled with the latest insights in dairy science and technology, alongside networking opportunities amidst Iceland's breathtaking landscapes all while fostering potential new avenues for business growth.

## Bronze sponsors benefits include:

- Visibility in all NDC marketing communications
- A booth at congress venue
- Complimentary registration for one delegate
